

SurveySwipe Instant Feedback

Point of sale feedback

SurveySwipe Instant Feedback gives your business the ability to harness feedback before it hits Yelp, Facebook and other review sites.

Now more than ever before people can instantly voice their opinions in the highly connected digital world of Facebook, Yelp, Twitter and others. While positive feedback can work in your favor, negative feedback can be irreparable.

- **Point and Scan:** 42% of Americans already own a smartphone and smartphone adoption is growing 17% every three months. Any smartphone is capable of instantly reading QR codes. Using QR codes your business can now make it easy and fun for your customers to provide instant feedback.
- **Realtime Feedback:** Bridge the gap between your customers and your business. Customize your feedback reports and get realtime access to advanced data analytics.
- **Turnkey Solution:** SurveySwipe Instant Feedback is a hosted solution backed by time tested Survey Analytics platform with 99.99% uptime guarantee. Simply print and deploy the QR code - on receipts, at exits or other points of interest.

Your app functions great and has a great user interface. Everything is easy to use and figure out. I like taking surveys on my phone.
